### High School Science - Texas Edition

Provides Texas teachers with a comprehensive science solution that can supplement all of their biology, physics, chemistry, and IPC curriculum. Sapling Learning provides an active, engaging learning experience for students and an easy-to-use, timesaving course management tool for teachers.

Built specifically for the TEKS, including the new and expanded science standards, Sapling provides built-in differentiated feedback and coaches students through each question. Teachers can also monitor student progress and easily generate reports in real-time.

## Additional Program Features:

- High School Science TEKS Practice and Mastery
- STAAR EOC Review and Practice Questions
- Online Homework, Quizzes, and Intervention
- Provides Exemplars for use in Group Instruction
- Unit of Study Pre- and Post- Tests
- Pre-Lab Preparation
- Prerequisite Math Reviews

## Educator and Student Benefits:

### Assessment-Based Instruction

Sapling's assessment program immediately addresses problem areas by coaching students in real-time. More than just multiple choice, Sapling provides interactive questions and delivers context sensitive feedback based on each particular student response.

### Saves Time

Sapling provides teachers with item banks to create formative, summative, and benchmark assessments and relieves the burden of grading homework.

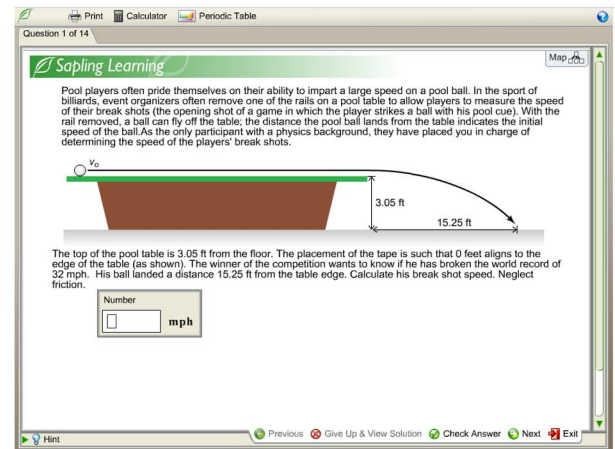

### Monitor Student Progress

Sapling Learning's programs deliver accurate, real-time individual and class performance data so teachers can track student performance and progress.

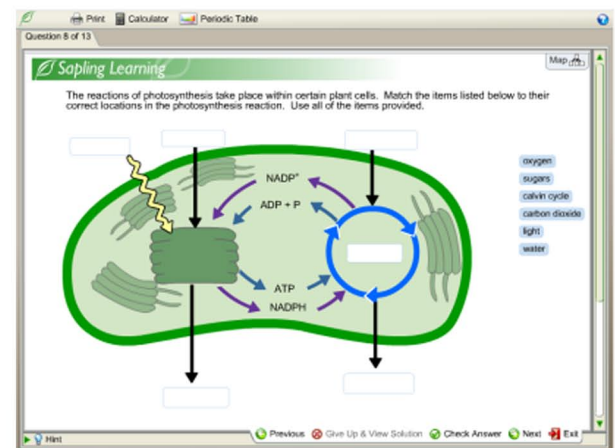

**Supports the 5E instructional model and easily aligns to the district's scope and sequence**

**Includes STAAR EOC Practice Tests**
